

IS YOUR PENSION SCHEME

FUTURE PROOF?

Setting up suitable insurable employment conditions for your organization is no easy task. Insuring the pension scheme in particular is experienced as a complex matter. The upcoming new pension system that goes into effect on 1 January 2023 will not make things any easier. After all, this new legislation has an impact on all current pension schemes in the Netherlands.

Montae & Partners would therefore like to offer members of the French Chamber of Commerce a one-hour online consultation with one of our Pension Consultants. We have years of experience setting up pension schemes for both Dutch and international companies. During the consultation, you will be able to gain a brief insight into the effects of the new pension legislation on your organisation's pension scheme.

If you want to use this exclusive offer, please contact your CFCI representative Maarten Reesink.
